## Search strategy - Trademarks

### Chosen search strategy: Comprehensive

#### Description of accuracy

The Comprehensive search algorithm is built with a statistical method, using more than 10,000 official cases where two marks have been found confusingly similar by a government official in the US and the EU.

This means that the Comprehensive search and watch reports cover all the usual search strategies applied in manual searching, such as:

- identical
- phonetic similarity
- orthographic similarity and misspellings
- prefix, infix and suffix variations
- vowel and consonant similarity
- plurals and stemming
- abbreviations and acronyms
- other similarities

## Statistical Risk Analysis - Trademarks

The ranking of results is based on a statistical analysis of more than 10,000 official cases of confusingly similar trademarks in the EU or the US. The three "Risk levels" indicate statistically where you will find potential conflicts.

#### Level 1 - Very high risk.

Of all conflicts, 20% have these types of similarities. This group of results typically stands for less than 1% of the total amount of results.

#### Level 2 - High risk.

Of all conflicts in Europe or the US, 40% have these types of similarities. This group of results typically stands for only 5% of the total amount of results.

#### Level 3 - Medium risk.

Of all conflicts in Europe or the US, 25% have these types of similarities. This group of results typically stand for 20% of the total amount of results.

## Common law sources - Scope of search

An automated search, with the described limitations, has been done for the following common law sources:

### **US company names**

Scope of search: A search among more than 20 million secretary of state business records from all US states and Washington DC.

### **Domain names**

Scope of search: Identical and very similar results from more than 1000 TLD's.

### **Web search**

Scope of search: An automated web search where known biases as region and personal search history has been eliminated. The search combines the trademark name with important keywords provided during the order (or just the trademark name if no keywords were provided). The top 30 results are included.

### **Images**

Scope of search: The same search settings as the Web search. The top 30 results are included.

### **Social media search**

Scope of search: A search of the use of the trademark name in the world's largest social networks: Facebook, LinkedIn, Twitter, Instagram, Google+ and Pinterest. The top 10 results from each social network are included.

### **Social names**

Scope of search: A search if the trademark name is registered as a user name in any of 50 social networks.

#### Goods & Services:

- 1** - Agricultural, forestry, and horticultural chemicals; chemicals used in industry, science and photography, namely, catalysts for use in the manufacture of industrial chemicals, chemicals for the manufacture of paints, pigments, adhesives, leather, paper, soap and solvents, chemical agents for binding, coating and impregnating textiles, furs and leather, nonwovens and fabrics, glassfrosting and staining chemicals, lithographic chemicals, stainpreventing chemicals for use on fabrics, tempering and soldering chemicals, welding and brazing chemicals, waxbleaching chemicals, reducing agents for use in photography, chemical compositions for developing photographs, sensitized cloth for photography unprocessed artificial resins, unprocessed plastics fertilizers and manures fire extinguishing chemicals metal tempering chemicals metal tempering preparations; chemical preparations for preserving foodstuffs leather tanning agents; sumac for use in tanning adhesives for use in the construction industry, furniture industry, textile industry, consumer packaging industry; bookbinding adhesives
- 2** - Aluminium paints, anticorrosive paints, antifouling paints, anticorrosive paints, asbestos paints, automotive paints, bactericidal paints, ceramic paints, damp proofing paints, enamel paints, fabric paints, fireproof paints, floor paints, fluorescent paints, heat resistant paints, luminous paints, oil paints, varnishes, lacquers preservatives against rust and against deterioration of wood colorants for use in the manufacture of beverages, cosmetics, food, paper and plastic molding compounds wood mordants; mordants for leather, for the textile industry and for dyeing natural fibres raw natural resins metals in foil and powder form for painters, decorators, printers and artists
- 3** - Bleaching preparations and other substances in the nature of laundry bleach and laundry additives for water softening all for laundry use; cleaning, polishing, scouring and abrasive preparations, namely, cleaning preparations for cleansing drains, dry cleaning preparations, all purpose cleaning preparations, polishing wax, scouring solutions and general use abrasives; bath soaps in liquid, solid or gel form; body soaps; liquid soaps for hands and face; cosmetic soaps; fragrances and perfumery; essential oils for the manufacture of perfumes; essential oils as perfume for laundry purposes, essential oils for aromatherapy; cosmetics; make-up; eye make-up; eyeliners; blushers; lipsticks; hair lotions; dentifrices
- 4** - Industrial oils and greases; industrial lubricants; castor oil for industrial purposes; hardened oils for industrial use; industrial lubricants; all purpose lubricants; dust removing preparations; dust-binding compositions; fuels, namely, alcohol fuel, aviation fuel, bagasse for use as fuel, benzene fuel, benzine fuel, biofuel, butane fuel, charcoal for fuel, coal based fuels, denaturated fuel alcohols, diesel fuel, ethanol fuels, fuel for domestic heating, fuel for lighters, fuel from crude oil, fuel gas, fuel oil, fuel pellets, lamp fuels, lighting fuel, methanol fuel, methylated spirits for fuel, mineral motor fuel, motor fuel, propane for use as fuel, solidified gas for fuel, wood heating fuel pellets, woodfuel and xylene fuel; candles and wicks for candles for lighting
- 5** - Pharmaceuticals, namely, anti-infectives, psychotropics, anthelmintics, lipid lowering agents, inducers of erections, ocular pharmaceuticals, antibacterial pharmaceuticals, cardiovascular pharmaceuticals, anti-diabetic pharmaceuticals, dermatological pharmaceutical products, pharmaceutical antiviral preparations, pharmaceutical antitussive-cold preparations, pharmaceutical preparations for wounds and for treating allergies; veterinary preparations, namely, antioxidants, pain relief medication, bacterial and bacteriological preparations for veterinary use, diagnostic preparations for veterinary use, veterinary preparations for treatment of intestinal bacteria and for destroying parasites; sanitary preparations for medical purposes; Dietetic foods and beverages adapted for medical and veterinary use; food for babies; dietary supplements for general health and well-being; plasters, namely, medical and surgical plasters; material for stopping teeth; dental wax; all purpose disinfectants; preparations for destroying vermins and parasites; preparations for destroying mice; fungicides; herbicides
- 6** - Common metals and their alloys; metal ores; metal building materials, namely, soffits, fascia, ceiling boards and floor boards, ductile iron piles, portable metal levees, gabions of steel wire, composite panels, metal decorative fireplace facings, stair nosing of metal, drywall corner bead of metal, awnings of metal, metal canopies, metal countertops for further installation; transportable greenhouses of metal for household use; non-electrical lifting cables; non-electrical elevator cables; non-electrical wire fencing; small items of metal hardware, namely, metal dust proof strikes, hardware mounting system comprised of metal brackets for bath accessories and decorative hooks, double-end swivels, carabiners of metal, high security locks and sheet metal plates; branching pipes of metal including those from alloy steel and titanium; metal safes
- 7** - Industrial robots; aeronautic engines; marine engines and parts and fittings thereof; metalworking machine tools; milling cutters machine tools; dies for use with machine tools; machine tools for the metalworking industry; machine tools for the textile industry; motors and engines used in industrial applications; machine coupling and belting, except for land vehicles; agricultural implements other than hand-operated, namely, cultivators, disk harrows, seed drills, seeders, incorporators, hay balers, coulters, and tractor towed agricultural implements in the nature of rollers, corn huskers, hay rakes, harvesters, reapers, mowers, plows; incubators for eggs; automatic vending machines
- 8** - Hand-operated hand and tools and implements, namely, riveting tools, abrading tools, pumps, chisels, locking clamp tools, dies, sharpening tools and instruments, cutting tools, tile spacer removal tools, vegetable shredders, slicers, shears, choppers, hair clippers, wrenches, saws, lifting jacks, hammers, plumbing snakes, tiller, lawn edgers, nail extractors, nail pullers, nail and pin punches, chisels, files, hoes, reamers, screwdrivers, reaching devices for picking up and

removing trash, litter and objects, lawn rakes, rabbeting planes, billhooks, press machines for paper making, book binding, embossing and relief and intaglio printing, hand-operated automotive repair tools, namely, brake and engine cylinder hones, magnetic pick-up tools, drum brake adjusting tools, brake pad spreaders, brake spring removers, disc brake piston cubes, ring and valve spring compressors, valve spring depressors, ball joint separators, valve holders; cutlery; side arms not including firearms, namely, swords and hunting knives; blades for electric razors

**9** - Computer hardware; Computer software, namely, downloadable computer software for word processing, computer software for document management, for application and database integration, for producing financial models, for use as a spreadsheet, for use in database management, for authorizing access to databases, for creating searchable databases of information and data, for use in customer relationship management (CRM), to automate data warehousing, and for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; Computer software, namely, communications software for connecting computer network users, global computer networks, computer software for controlling self-service terminals, for administration of computer networks, for wireless content delivery, for administration of computer local area networks, for use in computer access control, for controlling and managing access server applications, for controlling and managing access server applications, for monitoring and controlling communication between computers and automated machine systems, to maintain and operate computer system, for providing access to the Internet; Computer software for processing digital images, for processing digital music files, for organizing and viewing digital images and photographs, for creating and editing music and sounds, for creating digital animation and special effects of images, for manipulating digital audio information for use in audio media applications, to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; Computer software, namely, computer software for encryption, computer software development tools, computer operating software, computer graphics software, computer game software, computer anti-virus software, computer software for the creation of firewalls, computer software and firmware for operating system programs, computer aided design (CAD) software for general use, computer aided manufacturing (CAM) software for general use; computer peripherals; electronic data processing apparatus; computer networking hardware and data communications equipment, namely, electronic communications systems comprised of computer hardware for the transmission of data between two points, computer network adapters, switches, routers, and hubs; computer components and parts, namely, electronic components for computers; computer memory devices; electronic control apparatus, namely, electronic controllers for computer hardware and peripherals excluding gaming apparatus, electric control panels, computer terminals and electronic controls for machines; programmed-data-carrying electronic circuits; electric wires for communication equipment; electrodes; telephones; aerials; batteries; micro processors; computer keyboards; motion picture films about video recordings featuring music and artistic performances, education, entertainment, fashion, sports and culture

**10** - Surgical apparatus and instruments for medical use; dental apparatus and instruments, namely, apex locator, polymerisation apparatus, milling apparatus, intra-oral light systems, ultrasound and x-ray apparatus for dental imaging and orthodontic machines and instruments for dental purposes; surgical veterinary apparatus and instruments, namely, castrating, animal euthanasia, x-ray, and surgical apparatus and instruments; artificial limbs; artificial eyes; orthopedic articles, namely, orthopedic belts, orthopedic braces, orthopedic footwear, orthopedic soles, orthopedic walkers and orthopedic supports; suture materials; apparatus for artificial respiration; apparatus for blood analysis

**11** - Accent lights for indoor use; aquarium lights; automobile lights; book lights; ceiling lights; Christmas tree lights; air valves for steam heating installations; automatic temperature regulators for central heating radiators; central heating radiators; commercial cooking ovens; beverage cooling and ice dispensing machines; chemical fiber drying machines; air impellers for ventilation; automatic water dispensers for pets; air filtering units for removing dust, smoke and allergens from the air

**12** - Vehicles, namely, automobiles, motorcycles, airplanes; apparatus for locomotion by land, air or water, namely, land vehicles, vessels in the nature of boats and ships, airplanes; anti-theft alarms for vehicles

**13** - Firearms; Air guns; automatic guns; flare pistols ammunition; bullets; cartridge dies; detonators; explosive fuses; fireworks; firecrackers

**14** - Precious metals; alloys of precious metal precious stones; Ingots of precious metals; charms in precious metals or coated therewith fancy keyrings of precious metals; jewellery; amulets being jewellery; beads for making jewellery; charms for jewellery; jewelry and imitation jewelry; clocks and watches; chronometers

**15** - Musical instruments, namely, percussion instruments, stringed musical instruments, woodwind musical instruments, and electronic musical instruments; cases for musical instruments

**16** - Paper; cardboard; printed publications and printed matter, namely, printed certificates, booklets, coupons, lectures, leaflets, paper signs, manuals, curricula, newsletters, informational cards and brochures in the fields of art, music and artistic performances, entertainment, fashion, sports, culture, general human interest, film production, languages, science and technology, law; inking Ribbons for computer printers; bookbinding materials; books in the field of art, music and artistic performances, entertainment, fashion, sports, culture, general human interest, film production, languages, science and technology, law; adhesives for stationery or household purposes; artists' paint brushes; music sheets; printed music scores on sheets; periodical magazines in the field of art, music and artistic performances, entertainment, fashion, sports, culture, general human interest, film production, languages, science and technology, law; photographs; stationery and educational supplies, namely, blank note books and school supply kits containing various combinations of selected school supplies, namely, writing instruments, pens, pencils, mechanical pencils, erasers, markers, crayons, highlighter pens, folders, notebooks, paper, protractors, paper clips, pencil sharpeners, writing grips, glue for stationery or household use and book marks; typewriters; printed instructional and teaching material, except apparatus, namely in the field of art, music and artistic performances, entertainment, fashion, sports, culture, general human interest, film production, languages, science and technology, law; plastic materials, namely, bags and bubble packs; plastic film for packaging; self-adhesive plastic sheets for lining shelves; printing blocks

**17** - Silicon rubber; crude rubber; foam rubber; industrial packaging containers of rubber; gutta-percha; asbestos; mica plastics in extruded form used in production insulating fabrics; insulating oils, paints, tapes, plaster, washers, varnish, sleeves for power lines; plastic junctions for flexible pipes; plastic water pipes

**18** - Leather and imitation leather; leather and imitation leather bags animal skins and hides; luggage; back packs; umbrellas and parasols walking sticks; whips; harnesses and saddlery; animal identification collars; animal leashes; clothing for pets

**19** - Building materials (nonmetallic), namely, building stone, building sand, building paper, building glass, logs used as building material, mortar, non-metallic minerals for building and for construction, plaster for use in building, reeds for building, rock crystal for use as building materials, sandstone for building, serpentine building materials, terra cotta, tar and pitch, timber, lumber, tombstones, tufa, volcanic ash, xylolith, alabaster, andesite, asphalt, calcite, cement mixes, concrete, clay ash, feldspar, geotextiles, grout, macadam nonmetallic rigid pipes for building asphalt, pitch and bitumen ceramic monuments; monuments of concrete; monuments of marble; monuments of stone

**20** - Furniture, namely, bathroom furniture, bedroom furniture, dining room furniture, camping furniture, computer furniture, garden furniture, kitchen furniture, lawn furniture, living room furniture, office furniture, outdoor furniture, patio furniture, school furniture and furniture parts of all the aforesaid goods; chairs, cabinets, chests, doors, mirrors, picture frames, sea shells, meerscham, yellow amber

and progressive cavity pumps; parts of pumps for the aforementioned goods, namely pump housings, pump shafts, running wheels, leading wheels, screw spindles, bearings; safety valves, pressure stop valve and control valves for pumps; multiphase booster systems consisting of two-screw and progressive cavity pumps, valves, and piping, for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; gas compressor systems, consisting of screw compressors, valves and piping; static and dynamic seals for pumps; magnetic couplings for rotary and centrifugal pumps; oil mist lubricating systems equipment, oil mist motors and oil mist generators for use in rotating equipment applications; air operated oil mist generators for mixing oil with air to form oil mist, oil mist classifiers for converting oil with air to form oil mist, and electrically operated oil pumps and air compressors; oil centrifuges, oil drain pumps, oil filter adapters, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; fuel pumps for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; process control equipment, namely, loop and logic controllers; electric and charged magnetic couplings for rotary and centrifugal pumps; electric and electronic controllers for pump units, dispensing and chemical metering pump systems, centralized lubrication and oil purification systems; oil purifying units for commercial, industrial and domestic use.

**11** - Pumps, namely centrifugal pumps and positive displacement pumps, namely reciprocating pumps, two- and three-screw pumps, gear pumps, metering pumps and progressive cavity pumps; parts of pumps for the aforementioned goods, namely pump housings, pump shafts, running wheels, leading wheels, screw spindles, bearings; safety valves, pressure stop valve and control valves for pumps; multiphase booster systems consisting of two-screw and progressive cavity pumps, valves, and piping, for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; gas compressor systems, consisting of screw compressors, valves and piping; static and dynamic seals for pumps; magnetic couplings for rotary and centrifugal pumps; oil mist lubricating systems equipment, oil mist motors and oil mist generators for use in rotating equipment applications; air operated oil mist generators for mixing oil with air to form oil mist, oil mist classifiers for converting oil with air to form oil mist, and electrically operated oil pumps and air compressors; oil centrifuges, oil drain pumps, oil filter adapters, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; fuel pumps for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; process control equipment, namely, loop and logic controllers; electric and charged magnetic couplings for rotary and centrifugal pumps; electric and electronic controllers for pump units, dispensing and chemical metering pump systems, centralized lubrication and oil purification systems; oil purifying units for commercial, industrial and domestic use.

**35** - Procurement services for others in the form of purchasing heat exchangers for use in lube, seal, and control oil systems, liquid and gas filtration equipment, and replacement parts for lube, seal, and control oil systems, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; procurement of contracts for others in the field of the sale of lube, seal and control oil systems; retail store, online computerized, and wholesale ordering and distributorship services in the field of pumps and pump repair kits, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; installation and maintenance of oil-mist and other types of lubricating systems for others, namely air-operated oil mist generators, oil mist clarifiers for converting dry oil mist to wet oil mist, electrically operated pumps, compressors, pressure, and interconnecting piping therefor; advisory services in the field of the installation, maintenance, refurbishment, repair, servicing and upgrade of marine fire suppression and sprinkler systems; custom manufacture of valves, pumps, pump systems, multiphase booster systems, and gas compressor systems; design, development, manufacture, and testing of marine fire suppression and sprinkler systems for others; consultancy services in the field of marine fire suppression and sprinkler systems; process automation services, namely, collecting, analyzing, evaluating, regulating and controlling designated variables and events experienced on ships and other commercial industrial applications for the design and manufacturing of custom control systems; installation, maintenance, refurbishment, repair, servicing and upgrade of lube, seal and control oil systems for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; advisory services on the topic of the installation, maintenance, refurbishment, repair, servicing and upgrade of lube, seal and control oil systems and marine fire suppression and sprinkler systems for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; assessment and audit of equipment, facilities, and systems, for the development, documentation and provision of lubrication programs, gap analyses and recommendations to achieve maximized benefits from programs including cost benefit analysis, all provided to the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; provision of direct labor, technical expertise and equipment to the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships, to implement and execute comprehensive lubrication programs that monitor and maintain lubricants and lubrication systems in optimal condition; provision of data and trends in customer equipment, facilities and systems on the subject of operating conditions and lubricant health in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; provision of financial metrics derived from lubrication related

activities in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; identifying opportunities for improved reliability in equipment, facilities and systems through improvements and upgrades to lubrication systems including financial payback for recommended actions and execution of actions including design, equipment and labor requirements, in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; engineering services, namely technical analysis and advisory services in the field of lube, seal and control oil systems as well as marine fire suppression and sprinkler systems in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; computer-aided engineering services for others in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; computer-aided engineering services for others, namely, computer-aided imaging and design; design, development, manufacture, and testing of lube, seal and control oil systems and marine fire suppression and sprinkler systems for others in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; consultancy services in the field of engineering of lube, seal and control oil systems and marine fire suppression and sprinkler systems in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships.

**36** - Procurement services for others in the form of purchasing heat exchangers for use in lube, seal, and control oil systems, liquid and gas filtration equipment, and replacement parts for lube, seal, and control oil systems, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; procurement of contracts for others in the field of the sale of lube, seal and control oil systems; retail store, online computerized, and wholesale ordering and distributorship services in the field of pumps and pump repair kits, all for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; installation and maintenance of oil-mist and other types of lubricating systems for others, namely air-operated oil mist generators, oil mist clarifiers for converting dry oil mist to wet oil mist, electrically operated pumps, compressors, pressure, and interconnecting piping therefor; advisory services in the field of the installation, maintenance, refurbishment, repair, servicing and upgrade of marine fire suppression and sprinkler systems; custom manufacture of valves, pumps, pump systems, multiphase booster systems, and gas compressor systems; design, development, manufacture, and testing of marine fire suppression and sprinkler systems for others; consultancy services in the field of marine fire suppression and sprinkler systems; process automation services, namely, collecting, analyzing, evaluating, regulating and controlling designated variables and events experienced on ships and other commercial industrial applications for the design and manufacturing of custom control systems; installation, maintenance, refurbishment, repair, servicing and upgrade of lube, seal and control oil systems for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; advisory services on the topic of the installation, maintenance, refurbishment, repair, servicing and upgrade of lube, seal and control oil systems and marine fire suppression and sprinkler systems for use in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; assessment and audit of equipment, facilities, and systems, for the development, documentation and provision of lubrication programs, gap analyses and recommendations to achieve maximized benefits from programs including cost benefit analysis, all provided to the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; provision of direct labor, technical expertise and equipment to the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships, to implement and execute comprehensive lubrication programs that monitor and maintain lubricants and lubrication systems in optimal condition; provision of data and trends in customer equipment, facilities and systems on the subject of operating conditions and lubricant health in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; provision of financial metrics derived from lubrication related activities in the oil industry, power generation industry, water treatment industry, wastewater industry, marine transport industry, mining industry, pulp and paper industry, chemical processing industry, hydrocarbon processing industry, metals processing industry, and naval ships; **Introduction:**

Calyx and Corolla is a new company in the fresh flower market. They have gathered the talents of rising fresh flower growers, who are farmers who understand better growing for life of the plant, and horticulturists from their alma mater who are mostly for a well-till urban market. They have also developed a strong relationship with Federal Reserve, who is always growing Alternative Public's options for a well-organized local market, from its spots, to how we installed flowers growing (CFC) program for better behaved flower available among consumers who are attracted with CFC's brand.

CFC's model customer through 4-strings, which is based on a quote, research and tested market data. Individual consumers are more flexible with companies such as FPO, who has a national network of flower CFC's growers, however, as an example to the local market, however, who's growth is a lot more difficult to see.

Instead of going for a full market we would like to offer different models to split into the core. Finally we hope to look at the CFC's and Corolla's in light of these 4 dimensions:

## Disclaimer

The Trademark Search Company (TTSC) is a professional IP Research firm, and conducts research for all the forms of IP, especially, Patents and Trademarks with best effort. The purpose of the search report is to help you determine the registerability of your mark by identifying any possible conflicts in advance. You should not consider the search to be a guarantee of registerability of your mark, but only a reasonable expenditure of time and money to determine if your mark is registerable in view of the search results. The Trademark Search Company strives to ensure the accuracy and completeness of our research services. However, because of the subjective nature of such research and possible incomplete data supplied to us, we cannot warrant that our search reports are 100% complete or error-free. Accordingly, we disclaim all warranties of merchantability or fitness for a particular purpose. Any liability arising out of the preparation of our search report is limited to a refund of the search fee paid. This search is sold on a "best effort" basis only. Additionally, The Trademark Search Company is not a law firm, so none of our results/reports be deemed as legal opinion. However, our results and reports may be deemed as comprehensive research, and be used as the basis by lawyers/law firms to quickly reach an opinion.
